Response to Amendment

The following is in response to the amendment filed on February 29, 2004.

Claims 1-24 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

With respect to Applicant's arguments, the claims are allowed for the entire combination of claimed features, in particular because the feature of less than 30% initial dewatering on a forming roll having open volume, no suction, diameter less than 1400 mm, and wrap angle less than 7° is in combination with a central dewatering area comprising dewatering elements and forming elements, which includes at least a suction box immediately following the forming roll and forming strips opposite the suction box. This combination is not disclosed or suggested by prior art twin wire formers or any combination thereof.

Also with respect to Applicant's arguments, it is recognized that the claimed forming strips are not the same as the spring blades disclosed by Jakkola. It is also recognized that the twin wire formers of the other cited references are configured to provide greater dewatering at the forming roll.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric Hug whose telephone number is 571 272-1192. The examiner can normally be reached on Monday through Friday, 10:00 AM to 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven Griffin can be reached on 571 272-1189. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
